## Theme:

# Spring Time Baby Animals

We will learn about which animals are born at this time of the year.  
Each day we will focus on one special spring animal and learn about what is unique about that animal, their food, and life.

As the weather will be warming up in March,  
we are excited to see the changes that spring brings.  
We will look for buds that are about to bloom when we go outdoors to explore.

We will also look outdoors to see if we can find  
any spring insects. Do you think we will find any? Do you think we can catch any?
